With state-of-the-art processors, incredible battery life, 4G LTE wireless and one of the brightest displays in the industry, the 4th generation B300 is the go-to ruggedized notebook.

**Emergency Medical Services**

**PCS Mobile-Your Mobile Solution Expert**

**Design Services**

No matter what mobile solution your company is looking for, PCS Mobile has the experience to design a scalable system that will meet your needs today, and into tomorrow. We will evaluate your business requirements and provide a reliable solution, complete with product selection, seamless integration and prompt system support for almost any mobile device. Including laptop computers, portable radios, monitoring systems and mobile video solutions.

From beginning to end, standard project management methodology is used to ensure that no steps are missed during the process. We start with a complete fleet analysis to review all existing vehicles and any equipment currently installed. Installation solutions are detailed, reviewed and verified and all necessary hardware is ordered. Installation is scheduled and handled by our staff of professionally trained technicians.

**Installation Services**

PCS Mobile takes pride in a systems oriented installation process that focuses on quality workmanship. Status updates are provided throughout the installation process, so there are no surprises along the way. Thorough system testing and training ensures that users can quickly get up to speed on their new solution. After installation is complete, troubleshooting and technical support is always available, if needed, to ensure your complete satisfaction.
