

Getac
The F110 is a true revolution in rugged tablet computing. The F110 combines powerful 4th gen Intel Core Processors, the latest wireless and a large 11.6 inch widescreen display.

Gamber-Johnson
An industry leader in design innovation, manufacturing high-quality vehicle mounts, consoles and docking stations for use with Getac computers.

Havis
The industry's safest and most secure computing solution, keeping your expensive laptop where it belongs, docked and productive.

Getac
With state-of-the-art processors, incredible battery life, 4G LTE wireless and one of the brightest displays in the industry, the 4th generation B300 is the go-to ruggedized notebook.

Panasonic 20
The Panasonic Toughbook® 20 is a fully rugged, lightweight laptop that easily detaches to become a 10.1" tablet. And it only takes one hand.

Panasonic Toughbooks
Fully-rugged, convertible tablet PC. Sunlight viewable touch or dual touch LCD screen. Capable of up to 6000 nit in direct sunlight. Optional 4G LTE or 3G Gobi.

Panasonic
The Toughpad FZ-G1. The world's thinnest and lightest fully-rugged 10.1" Windows® 8 tablet. Also available with Windows 7.

Cradlepoint
The Cradlepoint COR IBR1100 Series is a compact, ruggedized 3G/4G/LTE solution that features highly available, cloud-managed networking for vehicles.

Fire Safety Services

PCS Mobile-Your Mobile Solution Expert

Design Services

No matter what mobile solution your company is looking for, PCS Mobile has the experience to design a scalable system that will meet your needs today, and into tomorrow. We will evaluate your business requirements and provide a reliable solution, complete with product selection, seamless integration and prompt system support for almost any mobile device. Including laptop computers, portable radios, monitoring systems and mobile video solutions.

From beginning to end, standard project management methodology is used to ensure that no steps are missed during the process. We start with a complete fleet analysis to review all existing vehicles and any equipment currently installed. Installation solutions are detailed, reviewed and verified and all necessary hardware is ordered. Installation is scheduled and handled by our staff of professionally trained technicians.

Installation Services

PCS Mobile takes pride in a systems oriented installation process that focuses on quality workmanship. Status updates are provided throughout the installation process, so there are no surprises along the way. Thorough system testing and training ensures that users can quickly get up to speed on their new solution. After installation is complete, troubleshooting and technical support are always available, if needed, to ensure your complete satisfaction.
