

# THE FIRST MOBILE DATA PROVIDER BUILT FOR BUSINESS

We partner with AT&T, Verizon and Sprint to give you access to the same networks and devices that you rely on today, but with the pricing, terms and flexibility your business needs.

## Friendly Business Terms

No contracts. No early termination fees. Customizable MB, GB or TB data plans. All plans pool by underlying carrier.

## Simplified Management

All of your devices, all of the best networks, managed through one billing and device management platform.

### BUSINESS BENEFITS

## Fast & Reliable LTE

Now you can access the largest, fastest and most reliable mobile data networks all in one place. DataXoom can connect all of your data devices to AT&T, Verizon & Sprint.

## Easy Activation

Whether buying new devices or switching existing devices, DataXoom makes it easy. Call or email to get connected today.

## WHY DATA XOOM?

Until now buying and managing data plans for a fleet of mobile data devices has been a challenge for businesses. DataXoom changes that. Now you can connect all of your tablets, hotspots and mobile data devices to AT&T, Verizon & Sprint through DataXoom One — an industry-first platform for managing all of your devices and data network connections in one place and on one bill.
